

Haiku! Gesundheit : An Illustrated Collection Of Ridiculous Haiku Poetry

Reality time is not nearly as much fun as fantasy time. And its definitely fantasy time, as pop surrealist Kenny Scharf illustrates Ross Venokurs zesty, zany poems written in the ancient Japanese form of haiku. While keeping to haikus strict limit of three lines totaling seventeen syllables -- five, then seven, then five -- Venokur and Scharf create an alternate universe in which Rossi the dog-boy barks at the moon, Anne becomes an eggplant, and a vacuum cleaner turns on its owner. Welcome to the world of Haiku! Gesundheit.
