

Physics of Polymer Networks: Proceedings (Progress in Colloid and Polymer Science) (Vol 90)

Physics of Polymer Networks presents the proceedings of the 29th Europhysics Conference on Macromolecular Physics held in Merseburg, Germany. The main topics of this volume are: - Theory of networks; - Formation of networks; - Sol-gel transition; - Experimental investigations on structure and properties of polymer networks.

Progress in Colloid and Polymer Science. Series Editors: Papadakis, Christine, Schmidt, Annette M., Kremer, Friedrich. Bis Vol. 111 im Steinkopff-Verlag
