

From Spark to Finish: Running Your Kickstarter Campaign

In my first year on Kickstarter, I ran four campaigns. All four succeeded; in fact, all four overfunded, some by over 400%. I am not a media superstar. I am, at best, a very energetic indie author and freelance painter. But even a small fish can make a big splash in the Kickstarter pond... with the right tools. This guide outlines the steps I took to build and fund all of my campaigns, from the spark of an idea, through project design and running the campaign, all the way to fulfillment... and beyond. Its even got checklists... and cartoon jaguars! Are you ready to run your own successful Kickstarter campaign? Lets get started!

Exotac Inc. 924 backers pledged \$37,143 to help bring this project to life. The nanoSPARK is built for the long run. The Exotac nanoSPARK stands ready for a survival situation or your next rugged adventure. About Us We will finish assembly of the nanoSPARK and begin packaging them.
