

3-D Close Up: The Human Body

3-D Close Up: The Human Body gives children a unique opportunity to go beneath the skin, where they can explore the amazing hidden workings of their bodies. Kids will explore the honeycomb-like structure of bones, and will follow a bite of apple through the digestive system. Filled with cool scientific photos, detailed anatomical illustrations, kid-friendly text, and four spectacular 3-D pop-up views, 3-D Close Up: The Human Body is designed in a vertical format to best showcase the body's primary systems. The perfect gift for future scientists and doctors, ages five and older.
